

## What Is A GPO?

A group purchasing organization (GPO) leverages the purchasing power of a similar group of buyers, aggregating individual purchases and negotiating discounts from manufacturers, distributors, and other vendors based on collective volume.

A GPO saves your organization time and money by giving you access to lower cost products and services.

CARE PURCHASING SERVICES (CPS) CONNECTS YOUR ORGANIZATION TO HUNDREDS OF CAREFULLY VETTED VENDORS

## How Does CPS Membership Work?

When you become a client of CPS, our team becomes an extension of yours. From making sure your procurement needs are met to resolving vendor conflicts, we are here for you.

### No Cost. No Obligation.

There is no membership fee to join CPS. As a client, there is no obligation to purchase from our vendor partners and no minimum requirements when purchasing.

### We Collect From Our Vendors.

CPS collects GPO fees from our vendor partners based on purchasing volume.
